### **DIRECTORS' REPORT**

Your directors submit the financial report of the consolidated entity, comprising Burey Gold Limited (the "Company") and its controlled entities (collectively "Burey" or the "Group") for the half year ended 31 December 2012. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

#### Directors

The names of directors who held office during or since the end of the half year and until the date of this report are as below. Directors were in office for this entire period unless otherwise stated.

Ron Norbert Gajewski	Non-executive Chairman
Klaus Peter Eckhof	Managing Director
Susmit Mohanlal Shah	Non-executive director
Kevin Peter Thomson	Non-executive director
Bruce Stainforth	Executive Director retired 29 November 2012

#### Results

The consolidated loss for the half year after tax was \$540,400 (2011: \$241,493).

#### **Review of Operations**

The principal activity of the consolidated entity during the course of the financial period was acquiring and exploring mineral interests, prospective for precious metals and energy.

During the half year period, exploration activity has focussed on infill soil sampling on the Kossanke and Celein properties, followed by a first pass orientation reverse circulation (RC) drill program at Kossanke as well as a second drill program at the Balatindi property.

#### Kossanke and Celein Licences (Burey earning 68%, Government 15%, Vendor 17%)

The Kossanke and Celein project area is located in the northern sector of Guinea's Mandiana District, a richly gold endowed portion of the Lower Proterozoic (Birimian) Siguri Basin. The Mandiana district has undergone wide spread artisanal mining activity since ancient times.

Infill soil sampling of the licence areas was completed in July and August 2012 on 330m line spacing. Laboratory reporting of soil sample assay results commenced later in the December Quarter and results compilation, interpretation and drill program target generation/ prioritisation is being carried out subsequent to the period end.

A first pass orientation RC drill program of 16 holes for 1,777m was completed during the period in the southern part of the Kossanke permit. 14 RC holes intersected mineralisation with better results being:

2m @ 4.59g/t Au from 41m in KDRC001;

3m @ 2.60g/t Au from 76m in KDRC007;

11m @ 1.10g/t Au from 10m in KDRC010;

16m @ 1.56g/t Au from 62m (including 4m @ 5.59g/t Au) in KDRC012; and

2m @ 14.20g/t Au from 75m in KDRC015.

This work was augmented by two DD holes totalling 184m. These drill fences tested part of a gold in soil anomaly which is up to 6km in length and was, in part, previously tested by trenches and wide spaced fences of RC holes drilled by former explorer Wells Gold in the mid-1990s.

An extensive RC drilling program for the northern areas of the Kossanke permit as well as the Celein licence area will commence once all interpretations of the infill soil program are complete.

#### Balatindi Project (Burey 75%, Government 15%, Vendor 10%)

The central polymetallic prospect (CPP) of the Balatindi Project which is located in the central east of Guinea, is considered to be highly-prospective for poly-metallic mineralisation with an iron oxide, copper, gold, uranium (IOCGU) affinity. The regional setting, geology, structure and chemical signature of the CPP bears a close similarity to the poly-metallic mineralisation occurring at Boddington, Western Australia.

As a follow up to the 2011 drill programme, two holes from a previous explorer's (Mining Italiana) programme were twinned on the CPP to assess their measure of gold tenor using both fire assay and BLEG analyses. All logging and sampling of this core was completed in the half year period, however the return of assay results from the laboratory is pending.

A further 18 hole diamond drilling (BLDD 18 to 35) programme followed during the period to test the strength and persistence of **mineralisation** associated with Anomaly E located immediately to the south of CPP.

Data compilation and analysis of assay results from the drilling campaign is ongoing since the end of the half year period. Once all drilling data is received and assay results collated, a 3D model can be prepared to confirm the interpreted geometry of U/Cu mineralisation and assign the requisite drill hole orientation for U / Cu resource drilling.

#### Mansounia Project (Burey Earning 70%; Government 15%; Vendors 15%)

Following the resource upgrade (June 2012 Quarter) a review / update of the preliminary (2009) scoping study of the Mansounia gold deposit (MGD) has commenced inclusive of follow up metallurgical testwork (agglomeration leach tests) to test viability of a heap leach process.

#### Dion – Koulai Uranium/Thorium Project (Burey 68%; Government 15%; Vendor 17%)

No work was conducted on this property during the half year period. However, subsequent to the period end, a contract for drilling services has been finalised for a program of around 15 RC holes for a total of 2,000 to 4,000 metres to test the character of the highly anomalous radiometric peaks identified previously. The drill program is expected to commence as soon as remaining work on access roads and drill pads is completed.

#### Auditor's Independence Declaration

#### NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

#### Statement of compliance

The interim consolidated financial statements are a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001 and Accounting Standard AASB 134: Interim Financial Reporting, Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB').

These half-year financial statements do not include full disclosures of the type normally included in annual financial statements. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial statements.

It is recommended that these half-year financial statements be read in conjunction with the annual financial statements for the year ended 30 June 2012 and any public announcements made by Burey Gold Limited during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

#### Basis of preparation

These half-year financial statements have been prepared on a historical cost basis, except for the revaluation of certain financial instruments. Cost is based on the fair value of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the interim financial statements, the half-year has been treated as a discrete reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except as set out below.

#### Significant accounting judgments and key estimates

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing these half year financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statement for the year ended 30 June 2012.

Exploration licences including Balatindi, Celein, Dion Koulai, Kossanke and Mansounia are in the process of being renewed by the Guinea Ministry of Mines and Geology. Conditions for licence renewal as set out in the Guinea Mining Code have been satisfied and the renewal applications were submitted in accordance with regulatory requirements. In the Directors' judgement, the licences will be renewed thus confirming the rights to tenure.

#### Adoption of new and revised Accounting Standards

In the half-year ended 31 December 2012, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2012. As a result of this review the Directors have determined that there is no change necessary to Group accounting policies.

The Group has also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2012. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change necessary to Group accounting policies.

# INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF BUREY GOLD LIMITED

We have reviewed the accompanying half-year financial report of Burey Gold Limited, which comprises the consolidated statement of financial position as at 31 December 2012, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a statement of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the disclosing entity and the entities it controlled at the half-year's end or from time to time during the half-year.

#### Directors' Responsibility for the Half-Year Financial Report

The directors of the disclosing entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2012 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Burey Gold Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Burey Gold Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

#### Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Burey Gold Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2012 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.
